A Message From The Fund

A year-end message from your BCIMA family

Dear valued members

These are not easy times. As we approach the final months of 2025, we know many of you are carrying a heavy load - rising costs, work pressures, family responsibilities, health concerns, and the general uncertainty that seems to touch every part of life these days. In times like these, your wellbeing becomes even more important, and we want you to know it remains at the heart of everything we do.

BCIMA is not just a healthcare fund; we are a community built around supporting one another when life gets tough. Our commitment is simple: to provide healthcare solutions that work with your reality - your needs, your budget, your circumstances. Knowing that you and your loved ones' healthcare needs are taken care of can make all the difference when everything else feels uncertain.

Good news first: We are still one of the most affordable options

Despite healthcare costs rising across the industry, BCIMA has historically maintained some of the lowest contribution rates available - all while preserving your full benefits. Many other schemes have had to cut cover or dramatically increase fees. We have not had to do that. In fact, BCIMA is bucking industry trends. While most medical schemes are losing members, we have grown our membership by around 8% this year; a vote of confidence that sets BCIMA apart.

What is changing in 2026

After careful consideration, the Board of Trustees has approved an 11.9% contribution adjustment for 2026. This decision was not taken lightly - we explored every option before determining that this increase was essential for the long-term sustainability of your scheme.

Income bands will also increase by 6.0%, reflecting expected salary adjustments. This helps ensure fair contributions across all member groups while maintaining the scheme's financial health.

Over the past six years, our average annual increase has been 7.6% - right in line with the industry average. During this time, many schemes have had to make benefit cuts, but at BCIMA we've protected all your core benefits. This year's adjustment ensures we can continue doing so.

Important changes for better value

In addition, we are introducing some practical changes to help manage costs while maintaining quality care:

- **Introducing a new optometry network**
From 2026, you will access optical benefits through the Universal Healthcare Network. You will now get your lenses and spectacles every 24 months - through a quality-assured network that helps us keep costs down.
- **Dental benefits**
Basic dentistry consultations will be available twice per year per beneficiary. This ensures everyone receives essential dental care while managing overall costs.
- **Medicine benefits improvement**
We've increased acute medicine cover from 80% to 85% - giving you better protection when you need it most
- **Benefit limit adjustments**
Hospital and chronic medicines benefit limits will increase by 4.0%.
Annual benefit limits will increase by 2.0%.

Why BCIMA remains your best choice

Family-friendly rates

BCIMA offers family rates regardless of family size - a unique feature that makes healthcare more affordable for larger families.

Younger, healthier membership

Our member base is younger than the industry average, which helps keep everyone's contributions lower.

By making smart adjustments now, we are ensuring the Fund remains financially healthy and can serve you for years to come. If actual healthcare costs come in lower than projected, this could mean smaller increases in future years.

The bottom line

Yes, contributions are increasing. But BCIMA remains one of the most affordable, comprehensive medical schemes available.

We have achieved this by:

- Making thoughtful decisions about benefits.
- Managing costs proactively.
- Maintaining our financial stability.
- Keeping your needs at the centre of everything we do.

Season's greetings

From all of us at BCIMA, we wish you a restful holiday season and a wonderful new year. Thank you for being part of the BCIMA family.

Here's to a healthy and prosperous 2026!

Warm regards,
BCIMA Fund

A very definite advantage is that the Fund was created especially for the Building, Construction and Civil Engineering Industries.

Basic Option Benefits 2026

Unlimited Benefits

LifeSense DMP - HIV	Unlimited, Subject to be Registered on the program / with Life Sense
COVID-related admissions and treatment. PMB = BT +200%	Unlimited PMB, subject to Pre-authorisation

FIVE Tips to Avoid Paying Medical Costs out of Your Own Pocket

- 1 For spectacles and contact lenses, use a Universal Network provider.**

BCIMA has an agreement in place with the Universal Optometrists Network. To minimise out of pocket cost, all providers charge an agreed rate for spectacles and contact lenses.
- 2 Use generic and formulary medicine.**

Generic medicine meets the same rigorous safety standards as the original branded medication and is approved by the South African Health Products Regulatory Authority (SAHPRA). Generic medicine is often significantly more cost effective and can help you prevent out of pocket expenses. Always ask your pharmacist for a cost-effective generic alternative. Medicine formularies are carefully selected to include safe and cost-effective medicine. BCIMA applies a formulary to medicine benefits, please ask your doctor to prescribe according to the formulary. This will ensure you have access to effective medicine that is covered in full by your Medical Aid.

Please note that any change in chronic medicine should also be communicated to your Medical Aid Fund to ensure your authorisation is updated.
- 3 Compare quotes before having a procedure.**

The BCIMA Tariff (BT) is the amount the Fund will pay for specific treatments and procedures. Please note that approval at 100% of the BCIMA Tariff doesn't necessarily mean payment at 100% of the account or what is being charged. Be sure to confirm that your provider is willing to charge the BCIMA Tariff to avoid costly co-payments. They will be able to advise if they charge the BCIMA Tariff or more. They can also provide you with a quote for their services which your Medical Aid Fund can check against the BCIMA Tariff. Remember that you can negotiate discounted rates with providers.
- 4 Check your hospital accounts.**

Please do not hesitate to contact the Fund if you have any questions about short payments on your hospital accounts. The Fund will assist as far as possible to resolve short payment queries. It may be that the Fund has not received all the information needed from the hospital to cover certain costs. Your Medical Aid Fund will be able to offer guidance in this regard.
- 5 Avoid non-emergency after-hour consultations.**

Where there is a valid emergency, you may have no choice. But where there are minor illnesses that can wait, rather avoid visiting the GP at the 24-hour health facility on a Sunday morning. It is going to cost you significantly more than it would on Monday morning. This is due to additional fees charged by the GP and possible hospital facility fees if the GP is based in a hospital emergency room.

Managed Care Programmes and Services

Chronic Medicine Management

To apply, register and update chronic conditions and chronic medicines for the chronic medicine benefit:

Telephone: | **011 208 1005 & 0860 111 900** (follow the voice prompts for chronic medicine)

Email: | **chronicmedicine@universal.co.za**

What is the Chronic medicine benefit?

BCIMA offers a chronic medicine benefit to fund medicines used for the treatment of chronic conditions.

What is a chronic condition?

A chronic condition is a condition that requires medical treatment on-going or long term for example Asthma, High Blood Pressure, High Cholesterol, Diabetes Mellitus etc. Medicines used to treat these chronic conditions are paid from the chronic medicine benefit.

How do I apply for chronic benefits?

- If your doctor has diagnosed you with a chronic condition, your doctor can apply for chronic benefits for you.
- The doctor will complete a chronic medicine application form with you.
- The completed application form and/or a copy of your recent prescription may be emailed to the Chronic medicine programme.
- Alternatively, your doctor or your pharmacist may telephone the Medicine Management department directly to register your chronic condition.
- Your doctor should provide information on your clinical examination and test results e.g. Blood pressure readings, lipogram test results, HbA1c or glucose results etc.
- The request for chronic medicine benefit will be reviewed by the Medicine Management department.
- The Medicine Management department will confirm whether the medicine your doctor has prescribed is on the formulary to treat your chronic condition. Medicines that are on the formulary for your chronic condition will be covered by the fund, subject to your chronic medicine benefit limit.
- The Medicine Management department will be in contact with your doctor if the medicine prescribed is not on the formulary.
- The outcome of your application will be communicated to you. If your chronic medicine is approved, you will be sent an Authorisation letter that lists the medicines that will be funded as chronic.
- You may obtain your approved chronic medicines from your local pharmacy when your chronic medicines have been approved.
- Please ensure that you take a valid repeatable prescription with you when you go to collect your medication.

Chronic Medicine Process

What is a formulary?

A Formulary is a list of affordable medicines that your doctor can prescribe for the management of your chronic condition.

How do I update my chronic medicine?

If your doctor changes your medication your doctor may call the Medicine Management department to update the chronic medicines, or you may send a copy of the latest prescription by email to the Chronic programme.

Where do I get my chronic medicines?

You may obtain your chronic medicines from your local pharmacy e.g. Clicks, Dis-Chem, FirstCare, Pick 'n Pay, MediRite, ScriptSavers, Medipost etc.

Do I pay a co-payment on my chronic medicine?

A co-payment may apply if you choose a medicine that has a cheaper generic equivalent. A generic medicine is one that contains the same ingredient, works the same way, has the same strength of ingredient and is equally effective as the original branded medicine. MMAP is the maximum medical aid price that a scheme pays for medicines that have a generic medicine. To avoid a co-payment, please ask your doctor to prescribe generic medicines and ask your pharmacy to supply you with the cheapest generic medicine.

You can avoid co-payments by the following:

- Using formulary medicines.
- Using generic medicines within MMAP.

Managed Care Programmes and Services

Oncology Management Programme

For patients who have been diagnosed with cancer to access the oncology benefits:

Telephone: | **011 208 1005 / 0860 111 090** (follow the voice prompts for oncology)

Email: | **oncology@universal.co.za**

What is the Oncology Management Programme?

At BCIMA we understand that battling with cancer is a difficult and emotional experience. Our Oncology Management Programme offers members, diagnosed with cancer, information, education and support they need to manage their condition. With the incredible advancements that have been made and the current treatments available, cancer can often be beaten.

If you have been diagnosed with cancer, you must register on the Oncology Programme so that you can access , the Oncology benefits. Your oncology treatments will be reviewed by a medical professional and preauthorised from the oncology benefit.

You may also contact the Oncology programme for advice, support and education relating to your cancer and treatment.

How do I apply for Oncology benefits?

- It is important that your treating doctor contacts the Oncology programme as soon as you are diagnosed with cancer and that he/she registers you on the BCIMA Oncology Management Programme.
- Your doctor will devise a proposed treatment plan to treat your condition, which should be sent to the Oncology programme before treatment starts.
- The treatment plan should provide information such as the date of diagnosis, ICD-10 code, the area to be treated, any prior surgery or treatment plus history, new treatment requested, as well as results of any pathology, radiology or special investigations done. The treatment must also include the costs of the proposed treatment.
- The Oncology programme medical professional will review the treatment plan according to accepted treatment guidelines and protocols. If necessary, your doctor will be contacted to discuss more appropriate or less expensive treatments.
- Once the treatment plan has been approved, treatment can commence.
- An Authorisation letter will be sent to your treating doctor and to you. The Authorisation letter lists the treatment that will be funded from the oncology benefit.
- Most oncology treatment takes place on an outpatient basis either at the oncology or radiation practice.
- If your treatment changes, your treating doctor must submit a revised treatment plan to the Oncology programme for review and preauthorisation.

Oncology Process

What does the Oncology Benefit cover?

The Oncology benefit covers the following treatment relating to the cancer:

- Chemotherapy
- Radiotherapy
- Radiology such as X rays, MRIs, CT and PET scans relating to the cancer
- Pathology tests relating to the cancer
- Medicines associated with chemotherapy e.g. anti-nausea, pain
- Consultations with service providers relating to your cancer e.g. oncologist, radiation oncologist. Any approved treatments will be funded from your overall hospital limit, subjects to the benefits available.

Disease Management Programme

Building and Construction Industry Medical Aid fund | BCIMA is contracted to LifeSense Disease Management to manage all BCIMA members that are living with HIV.

What is HIV?

HIV is the Human Immunodeficiency Virus that is contracted via direct contact with body fluids from a person living with HIV that has a detectable viral load. These bodily fluids include Blood, Semen, Rectal and Vaginal fluids, and breast milk and use of an infected persons needles / syringes.

How do I know if I have HIV?

Being tested for HIV is simple and easy. A RAPID test is available at clinics and pharmacies. This is a simple "finger prick" test that will indicate if you are HIV positive or negative. If your RAPID test result is positive, this needs to be confirmed with a follow up test called an ELISA test. This is a blood test that can be done at any pathology laboratory, or your doctor can draw blood and send it to the pathology laboratory to be tested.

What if my result is HIV Positive?

If your ELISA test is positive, it means that you have been infected with / have contracted HIV. The "Test-and-Treat" Guidelines indicate that as soon as you know your status you must start on HIV (anti- retroviral -ARV) treatment as soon as possible. The new treatments that are available today are single tablet treatments that are taken once daily every day. The sooner you start treatment, the better your long-term outcomes are as ARV treatment stops the virus from replicating / multiplying in your body and prevents the virus from destroying your immune system (CD4 Cells).

If left untreated, the HIV virus will attack your immune system (CD4 Cells) and your CD4 Cell count will drop making you susceptible to opportunistic infections such as pneumonia and TB.

Starting ARV treatment!

When you are diagnosed with HIV your viral load (amount of HIV virus in your blood) will be high. This is known as a "detectable" viral load. Taking ARV treatment stops the virus from replicating and therefor the level of virus in your blood becomes "undetectable" i.e., it cannot be "detected" or picked up on a blood test. If your viral load is undetectable, you will not transmit HIV to your partner or other individuals. This is known as U=U: Undetectable = Untransmittable.

People living with HIV that have an undetectable viral load can safely conceive a baby, and provided that the pregnant mother maintains an undetectable viral load, she will not pass the HIV onto her unborn child.

Share your status!

Be open and honest with your partner and loved ones and seek professional and appropriate care and counselling to help you reduce the stress and anxiety of living with HIV. People living with HIV that have an undetectable viral load, can live as long and as healthy as someone that does not have HIV.

Where can I go for help and assistance?

LifeSense Disease Management manages all BCIMA members that are living with HIV. Contact LifeSense on **0860 506 080** and speak to one of their professional Case Managers who will assist you with registering on the LifeSense Programme. Alternatively you can e-mail enquiry@lifesensedm.com or send an SMS to **31271** and LifeSense will call you back, or, you can access an application form from the LifeSense website www.lifesensedm.com and take this to your treating doctor to complete so that you can register for your HIV benefits offered to you by BCIMA.

What can I expect from the LifeSense programme?

- Experienced HIV counsellors and Case Managers will offer counselling and support to you and your family members.
- Advice on how and when to take your medication.
- Advise on healthy lifestyle and HIV management.
- Reminder of when you are due for follow up blood tests and scripts.
- Individualised case file review by the LifeSense Medical Officer to ensure ongoing optimal care and management of your HIV. If required, the LifeSense Medical Officer will liaise directly with your treating doctor regarding your ongoing treatment.

What medical benefits am I covered for when joining the LifeSense programme?

- Once registered on the LifeSense programme BCIMA will cover the cost of your doctor consultations and blood tests that are HIV related. Your choice of doctor is your decision, and once registered on the LifeSense programme your consultations with your treating doctor will be covered as per scheme rules.
- Your HIV medication (ARV treatment) will be paid for by BCIMA and delivered to your chosen address by a courier pharmacy.
- All pregnancy females will have access to treatment and care whilst pregnant as well as prophylactic treatment for baby once baby is born.
- Post Exposure Prophylaxis (PEP): This is access to emergency ARV treatment for 1 month if you are accidentally exposed to HIV. Access to PEP must be done within 72 hours of exposure: Call LifeSense 24/7/365 on **0860 506 080**.
- Management of TB (tuberculosis) for those who require treatment. (This is subject to BCIMA Scheme rules).

Netcare 911 Emergency Services

Netcare 911 is a leading private emergency medical service provider in South Africa with an extensive footprint across all nine provinces and that serves patients with quality service. Netcare 911 is focused on sustainable service excellence, especially patient outcomes.

Recognising that technology is playing an increasingly important role in all aspects of emergency medicine, Netcare 911 is harnessing cutting-edge technologies, embracing international standards and best practice, as well as academically rooted methodologies.

Netcare 911 has a fleet of road ambulance, helicopters and fixed wing aeroplanes that is readily available to be dispatched in the event of a medical emergency.

By dialing **082 911** from any landline or cellular phone, you and your dependants have access to excellent emergency medical care

Points to remember when calling Netcare 911:

- Dial **082 911** if there is a medical emergency.
- Give your name and the telephone number you are calling from.
- Give a brief description of what the medical emergency is.
- Give the address or location of the incident as well as the nearest cross streets or other landmarks to assist paramedics to reach the scene as quickly as possible.
- Please, if possible, tell the Call Taker which medical scheme you belong to.
- Do not put the phone down until the controller has disconnected.

Health-on-Line - emergency telephonic medical advice and information

Assistance and advice is just a phone call away through Netcare 911's Health-on-Line, which provides emergency as well as non-emergency telephonic medical advice to members by qualified nursing sisters via the Netcare 911 24-hour Emergency Operations Centre and in accordance with current clinical best practice.

Emergency medical response by road or air from scene of medical emergency

Immediate response, using the most appropriate and closest road or air medical resource, staffed by doctors, nurses and paramedics administering instant, life-saving treatment, resuscitation and stabilisation.

Ambulance authorisation procedure

In all instances, where possible, call Netcare 911. In the case of an inter-hospital transfer, when you are admitted to hospital, please inform the admitting hospital that you are a Netcare 911 member and that any transfers must be done through **082 911**.

Fraud

Report Without Delay

**Illegal or
fraudulent acts**

Corruption

**Unethical
behaviour**

**Misuse of
funds**

Bribery

Maladministration

Fraud is not new, but it is an ever-changing problem in society that we need to address. In its continuous commitment of zero tolerance towards fraud, corruption and unethical behaviour, we have implemented a totally anonymous reporting facility, the Vuvuzela Hotline.

We are asking you to join the fight against fraud today by reporting:

The reporting options are:

Free call number: 080 111 4447

E-mail: universal@thehotline.co.za

Website: www.thehotline.co.za/report

SMS: 30916

Mobile application: Vuvuzela Hotline app - download from Google play store and use **080 111 4447** to report

Fax: 0867 261 681

Post: PO Box 10512, Centurion, 0046

Reports can be filed anytime. Legal can be contacted for escalations and queries at Legal@universal.co.za or Fraud@universal.co.za

This anonymous and independently managed facility provides for a safe alternative to silence.

Exclusions

IMPORTANT:

As BCIMA is a low-cost fund, The Registrar of Medical Schemes has granted the Fund exemption in respect of the provision of prescribed minimum benefits (PMBs). However, the Fund pays for PMB treatments at BCIMA Tariffs, subject to the annual limits.

- 1.1 Treatment arising out of an injury sustained by a member or dependant and for which any other party is liable. The member shall be entitled to such benefits for the service rendered, as would have applied under normal conditions, irrespective of the lapse of time. Where a member has recourse in terms of a third-party claims, the member must refund the Fund for payments received from third parties in lieu of claims paid by the Fund for the injury/event. Where the member refuses to refund the Fund, it constitutes unlawful enrichment, and the Fund will reverse claim payments made in respect of the injury/event.
- 1.2 Treatment of an illness or injury sustained by a member or a dependant of a member, where in the opinion of the Board such illness or injury is directly attributable to failure to carry out the instructions of a medical practitioner.
- 1.3 Claims and expenses incurred by a member or dependant of a member in the case of or arising out of willful self-inflicted injury, will not be paid.
- 1.4. Claims and expenses incurred by a member or dependant of a member in the case of or arising out of professional sport, speed contests and speed trials will be paid, subject to annual limits only.
- 1.5 Medical examinations or inoculations initiated by employers or required by a member or a dependant of a member for statutory, employment or social purposes, including consultations, visits, examinations and tests for insurance, school camps, visas, employment, or similar purposes.
- 1.6 Cosmetic and Treatment for Obesity:
 - All costs for operations, medicines, treatment and procedures for cosmetic purposes and obesity, e.g., Bariatric Surgery, gastric bypass, slimming preparations, and appetite suppressants; including tonics, slimming products and drugs as advertised to the public.
 - Consultations and treatments as provided by General Practitioners and Dieticians as part of a conservative lifestyle, based protocol will be paid subject to the Annual Limit.
 - Keloid and scar revisions.
 - Sclerotherapy.
 - Operations or surgical procedures relating to jaw, ear, eyelids, or any other cosmetic procedures.
- 1.7 Dental:
 - Bone Augmentations.
 - Bone and tissue regeneration procedures.
 - Crowns and bridges for cosmetic reasons and associated laboratory costs.
 - Enamel micro abrasion.

- Fillings: the cost of gold, precious metal, semi-precious metal and platinum foil.
- Laboratory delivery fees.
- Othognatic surgery.
- Sinus lift.
- Gum guards or mouth protectors.

1.8 Holidays for recuperative purposes, accommodation and/or treatment in headache and stress relieve clinics, spas, and resorts for health, slimming recuperative or similar purposes.

1.9 Treatment of infertility and impotence:

Investigations, operations and/or treatment whether advised for psychiatric or similar reasons in respect of artificial insemination and treatment for infertility. Including but not limited to: Assisted Reproductive Technology, In-vitro fertilization, Gamete Intrafallopian Tube Transfer, vasovasostomy (reversal of vasectomy) and salpingectomy (reversal of tubal ligation).

1.10 Medicine:

- Medicines not registered with the Medicines Control Council and proprietary preparations.
- Applications, toiletries, and beauty preparations.
- Homemade remedies.
- Alternative medicines.
- Bandages, cotton wool and similar aids, unless prescribed by a General Practitioner or Specialist.
- Patented foods including baby foods.
- Contraceptives and slimming preparations.
- Tonics as advertised to the public.
- Household biochemical.
- Vitamins, mineral supplements, and herbal remedies.
- The purchase of medicine prescribed by a person not legally entitled to prescribe medicine.
- Purchase of chemist supplies not included in the prescription from a medical practitioner or any other person who is legally entitled to prescribe medicine. Provided that this excludes benefits payable under Pharmacy Advisory Therapy.
- Aphrodisiacs and/or any products to induce, enhance, maintain, and promote penile erection or to address erectile dysfunction such as erectile appliances and drugs, including but not limited to Viagra.
- Anabolic steroids such as, but not limited to Deca Durabolin;
- Non-scheduled soaps, shampoos, and other topical applications.
- Stop smoking products, such as but not limited to Nicorette, Nicoblock.
- Sunscreens and tanning agents.

1.11 Mental Health:

- Sleep therapy and hypnotherapy.

1.12 Optical:

- Sunglasses (lenses with a tint greater than 35%).
- Coloured contact lenses.
- Corneal cross linking.
- Phakic implants.

1.13 Radiology and Radiography:

- PET scans; unless pre-authorised by oncology management for the appropriate diagnosis, staging, the monitoring of response to treatment and investigation of residual tumour or suspected recurrence (restaging). Metastatic breast cancer.
- CT Colonoscopy.

1.14 Travelling expenses.

1.15 All costs in respect of sickness conditions that were specifically excluded from benefits when the member joined the Fund as per waiting periods and exclusions applied as per the Medical Schemes Act.

1.16 Private Nursing Fees in respect of Frail Care and both mother and child in postpartum cases.

1.17 Cost of accommodation in respect of old age homes, and other custodial care facilities.

1.18 Charges for appointments which a beneficiary fails to keep.

1.19 Venereal Disease.

1.20 Injuries arising from parachute jumping or hang-gliding.

1.21 Uvulo-palatopharyngioplasty (UPPP).

1.22 All costs that are more than the annual maximum benefit to which a benefit is entitled in terms of the Fund.

1.23 Costs for services rendered by -

- Persons not registered with a recognised professional body constituted in terms of an Act of Parliament; or
- Any institution, nursing home or similar institution not registered in terms of any law except a state or provincial hospital.

1.24 No member shall be entitled to any benefits or portion thereof, payable in terms of these Rules, where such benefit or portion thereof is recoverable by such member.

- Under the Compensation for Occupational Injuries and Diseases Act; or
- Are invalidated as claims under the Compensation for Occupational Injuries and Diseases Act through failure of the member to report the accident in the manner required; or
- Would have arisen if the member had been able to, and had made use of the facilities provided by the Employer at factories to treat the results of accidents at work, or
- Are covered by any ex-gratia compensation from the Employer; or
- From third party (including an insurance company registered under Act 29 of 1942) who is liable, therefore.
- Any amount recovered or recoverable by the member or dependant as aforesaid in respect of any illness or accident must be disclosed by the member of the Fund.

1.25 Prosthesis and appliances:

- Where not introduced as an integral part of a surgical operation.
- Transcatheter Aortic Valve Implantation (TAVI).
- Replacement batteries for hearing aids or other devices.

2. LIMITATION OF BENEFITS

- 2.1 The amount payable in any one financial year, i.e., the period from **1st January to 31st December** inclusive, shall be limited only to the extent of the separate maxima as set out in the relevant Annexures.
- 2.2 For the purpose of these Rules a claim shall be considered as falling within the financial year if the liability was incurred by the member or a dependant of a member within such financial year.
- 2.3 Beneficiaries admitted during the course of a financial year are entitled to the benefits set out in the relevant benefit option chosen, with the maximum benefits being adjusted in proportion to the period of membership calculated from the date of admission to the end of the particular financial year.
- 2.4 In cases of illness of a protracted nature, the Board shall have the right to insist upon a member or dependant of a member consulting a particular specialist the Board may nominate in consultation with the attending practitioner. In such cases, if the specialist's advice is not acted upon, no further benefits will be allowed for that particular illness.
- 2.5 In cases where a specialist, except an eye specialist, is consulted without the recommendation of general practitioner, the amount of assistance to be rendered by the Society may, at the discretion of the Board, be limited to the amount that would have been paid to the general practitioner for the same service.
- 2.6 Unless otherwise decided by the Board - hospitalisation in respect of psychiatric treatment shall be limited to a stay of not more than 21 days per family in a calendar year.
- 2.7 Benefits for the following medication will be allowed if prescribed by a Dermatologist: Dianne and Roaccutane.
- 2.8 No claim shall be payable by the Fund if, in the opinion of the Medical Adviser, the health care service in respect of which such claim is made, is not appropriate and necessary for the symptoms, diagnosis, or treatment of the medical condition at an acceptable and reasonable level of care.
- 2.9 Notwithstanding the provisions of this Rule, the Board shall be entitled, but at no stage obliged, in its role and absolute discretion, to pay the whole or part of any account which may otherwise be excluded in terms of the Rules.
- 2.10 Unless otherwise decided by the Board, benefits in respect of medicines obtained on a prescription are limited to one month's supply for every such prescription or repeat thereof.

3. CONTRIBUTIONS

- 3.1 Hourly Rate and Monthly Paid Employees:
 - Contributions for the hourly rate of pay for employees are due weekly, in arrears and payable no later than the second working day of the following week.
 - Monthly paid employees' contributions are payable in advance and no later than the second working day of the month that the contributions are due.

- 3.2 Continuation members:
- Contributions are structured according to the gross monthly salary or pensionable earnings.
 - Contributions are payable in advance not later than the second working day of the month that the contributions are due.

4. WAITING PERIODS AND SPECIAL EXCLUSIONS

In terms of the criteria laid down by the Medical Schemes Amendment Act, the Fund may impose the following waiting periods:

- 4.1 A general waiting period of three months.
- 4.2. Twelve-month exclusion on pre-existing medical condition/s, for that specific condition/s.
- 4.3 An administrative fee may be imposed upon a member according to the late joiner penalties, as described in the Medical Schemes Act.

5. ABBREVIATIONS AND DEFINITIONS

S	R17 591.00	R20 984.99	R8 179.00
T	R20 985.00+		R9 348.00

Processing of Personal Information

Processing of Personal information by the Scheme is justified in terms of section 11(1) of POPIA. Further the processing of Special Personal Information is authorized in terms of section 32 of Protection of Personal Information Act (POPIA). In addition to the justification and authorization expressly provided in POPIA, the operation of these Rules also serve consent between the parties to process Personal Information in terms of the binding contract that it constitutes between a member and the Scheme as provided for in section 32 of the Act.

Since the promulgation of POPIA new members have been signing application forms, incorporating consent to process their personal information as well as that of their dependants. The consent provisions included in these Rules and/or the application form includes prior consent by the principal members as a competent person, to process Personal Information of a child as provided for in section 35 of POPIA.

Personal Information is required for the processing of a member's application form, assessment of risks and underwriting, the execution of the agreement between the Scheme and the member and/or for the protection of the legitimate interests of the Scheme and the member and/or in terms of relevant legislation. The provision of the personal information is mandatory and without it the Scheme will not be able to perform its contractual and legal obligations in relating to the business of a medical scheme as defined in the Act.

Personal Information includes but is not limited to the member and dependant's health information, identity number, residential address etc. As far as reasonably possible the Scheme will collect the information directly from the member.

Complaints Procedure

Protection of Personal Information Act (POPIA)

In the unlikely event of a member needing to report an incident where a personal inform data breach has occurred, the following process needs to be followed:

Please inform the Fund Immediately -
Tel no: **011 208 1005** or **bcimafund@universal.co.za**

Once the breach has been confirmed, please complete the incident form available on the website, and submit it to the CEO / PO of the Fund.
POPIA@universal.co.za

If you are not satisfied with the outcome from the CEO / PO, you can refer the matter to the Information regulator.
Information regulator: **www.justice.gov.za/inforeg** or **inforeg@justice.gov.za**
